The House of Assembly

The House of Assembly (HA) is the lower house of the South Australian Parliament. The house is comprised of 47 members each representing a single electoral district. Elections were held in every district on 18 March 2006 to determine the representative from each to serve in the 51st parliament.

All districts were contested - with a minimum of four, maximum of eight candidates contesting each election. Boundaries for the districts were as determined in the 2003 Order of the Electoral Districts Boundaries Commission, which became effective on polling day.

3.1 Nominations

269 candidates contested the elections, an 11% decrease from the 2002 elections when 302 candidates stood. 252 (93.7%) were affiliated to political parties (8), 17 (6.3%) were independents.

3.2 Vote counting

3.2.1 The vote counting system

Electors are required to mark the House of Assembly ballot paper with sequential numbers indicating the order in which the various candidates are preferred. To be elected, a candidate must receive at least an absolute majority of the total formal votes (50% plus one).

If a candidate receives more than half of the total formal first preference votes cast in the district, that candidate is elected. If at the first count, no candidate receives more than 50% of the formal votes, the one with the least number of votes is excluded. The next excluded candidate's ballot papers are then distributed to continuing candidates according to the next preference marked on the ballot paper. The process continues - excluding the candidate with the least number of votes and distributing the ballot papers according to the next available preference to candidates remaining in the count - until one candidate has more than 50% of the vote and is elected. *Note: in South Australia, even if a candidate is elected at first count with a majority of first preference votes, ballot papers are distributed until only two candidates remain in the count.*

3.2.2 Ballot paper counting

Ordinary votes

A first count was carried out on election night of House of Assembly ballot papers cast by electors voting within their district on polling day. A recheck of all those ballot papers was undertaken in district returning officer offices the day after polling day (Sunday 19 March 2006).

Declaration votes

Declaration vote counts were carried out during the week after polling day. Ballot papers from all declaration sources (postal, pre-poll in person and absent on the day) were sorted, counted and all preferences distributed by the weekend after polling day.

Data capture of vote information

Polling night count figures were entered on the results system that night. Recheck figures were keyed afresh the next day to incorporate ticket vote data and subsequently updated with declaration vote and preference distribution figures.

3.5 HA informality

No informal votes were cast in the following 11 polling locations:

District	Polling locations
Flinders	Karkoo, Ungarra, Warrambo
Goyder	Mobile Point Pearce
Heysen	Uraidla
Mackillop	Frances, Hynam, Kybybolite, Mobile Coorong, Wolseley
Schubert	Moculta

HA informality increased from 3.1% at the 2002 elections to 3.6%. 33 677 informal ballot papers were examined with the following results:

Apparent deliberate informality (67.8 % of all informal ballot papers)

- Blank **50.1%**
- Contained marks or messages that could not be determined as an attempt to vote **17.7%**

Recognisable attempt to cast a formal vote (29.5% of cases)

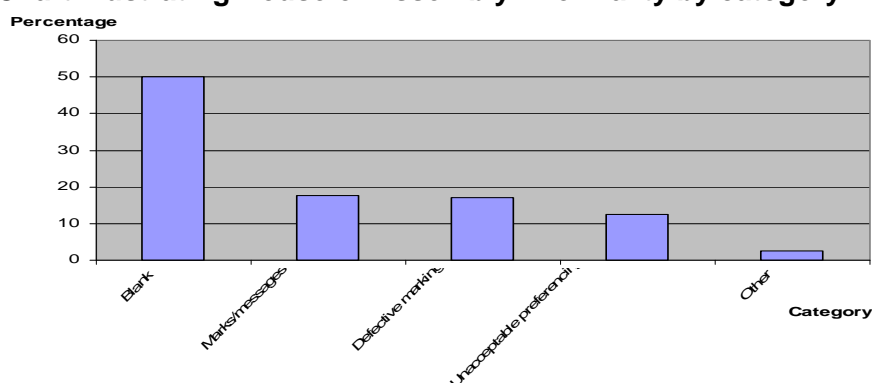

- Defective marking **17.0%**
- Unacceptable preferencing* **12.5%**

Other reasons

- (eg not found in the ballot box, elector identified) **2.7%**

*exhausted or partial numbering incompatible with a voting ticket

Chart illustrating House of Assembly informality by category

Observations

- Informality ranged from 2.3% (Bragg, metropolitan, safe Liberal with 5 candidates; & Davenport, Metropolitan, fairly safe Liberal with 5 candidates) to 5.0% (Port Adelaide, metropolitan, safe Labor with 7 candidates);
- Apparent deliberate informality increased from 59.5% in 2002 to 67.8%;
- Defectively numbered ballot papers decreased from 37.0% in 2002 to 29.5%. The number of candidates decreased to 269 from 302, an average of 5 candidates per district compared with 6 in 2002;

HA Results

District results - Adelaide to Wright

Notes on the tables:

a) **Percentage of First Preference Votes and Ballot Papers Counted for the District**

The candidates' names are as they appeared on the ballot paper, as requested by the candidates at the time of their nomination.

b) **Two Party Preferred**

After the recheck of all ordinary votes from each polling place on the Sunday after polling day, a distribution was carried out of all formal ballot papers to the Labor and Liberal candidates (ballot paper order). A similar exercise was carried out for all formal declaration votes. The counts provided:

- a notional 2PP result even for those districts without a Labor/Liberal final result (see Table 14 for district and amalgamated statewide figures);
- notional Labor/Liberal figures for ordinary and declaration votes which are used in the deliberations on boundaries.

The figures may differ slightly from the final figures in a district with an actual Labor/Liberal result due to the differing treatment of ticket votes.

c) **Distribution of Preference Votes to Last 2 Candidates in Count**

Preferences on all formal ballot papers must be distributed until only two candidates remain in the count irrespective of whether a candidate has already obtained >50% of the primary vote and is elected (EA s96(10)). All districts had >two candidates and a preference distribution was carried out in each district to reach a two candidate preferred result. In five districts the final outcome was other than a two party preferred (Labor/Liberal) result.
